Will & Johanna DeMay

Thank you for your interest in our work. We create each piece by hand with stoneware or porcelain clay. The pots are decorated using glazes & techniques developed over many years & then fired in a kiln to 2400°F. Clay & glaze fuse together into pottery which is durable, functional & pleasing to both eye & hand. Pieces for the table are ovenproof, leadfree, microwave & dishwasher safe, but sudden temperature changes should be avoided. To insure the long life of tableware, it should be heated & cooled evenly, so please observe the following cautions:

- Never use directly on stovetop burners or under a broiler.
- Do not use for dryroasting or defrosting.
- Do not take from refrigerator to preheated oven.
- Do not freeze.

- Use a moderate setting in microwave oven.
- Use a maximum setting of 350°F. In a conventional oven.
- Keep mostly full of food or liquid.
- Do not set a hot pot onto a cold hard surface.
- Preheat teapots & casseroles with hot tap water.

We welcome your questions, comments & requests.
