

## Joanie Post as Clayscapes

Joanie Post lives in Grand Junction, Colorado, with her husband, two children & two cats. She has been working in the clay medium for 15 years. She has a BA in art from the University of Northern Colorado as well as having studied in Italy for six months. Her inspiration comes from her two crazy gray cats.

The culmination of these methods is multiple firings in the kiln. May you

find my pottery a pleasure to see, touch & use.

Pottery can last a lifetime with proper care. It can be used in the dishwasher, microwave, &

over. For oven use, place in the oven before heat is turned on. Avoid thermal shock & banging other ware in dishwasher. All glazes are lead-free. Enjoy!

Clayscapes  
Creations are unique original pottery forms. Each is handmade with a love of clay & its process. They are made from a porcelain or stoneware claybody. Shapes are formed on a potters wheel or using various slab construction methods. This is the palette from which the decorative process begins. A variety of materials are used, including colored porcelain, slips, stains, glazes, gold & luster, to give each piece its one-of-a-kind quality.
